### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Double Patenting*

1. Claim 1 is rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 1 of prior U.S. Patent No. 5,848,932. This is a double patenting rejection.

2. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Pickardt.

The patent to Pickardt discloses a slot machine 1 comprising a means for receiving a wager, coin slot 10, and a plurality of rotatable reels 2, 3, 4. The rotatable reels are caused to rotate after a wager has been placed and subsequently stopped thereby displaying a plurality of indicia, see page 6, lines 13-24. A means, microcomputer 25 generates a signal corresponding to at least one of said reel displays of the indicia,

page 9, line 15 to page 10, line 3. Pickardt further comprises a mechanical, movable bonus payout indicator in the form of wheel 15. The mechanical movable bonus payout indicator visually indicates one of a plurality of randomly selected bonus payouts 16, (e.g. "4", "10", "20", "25"). The bonus payout indicator 15 is operatively connected to the signal generating means 25, such that the bonus payout indicator will only operate if the signal generating means has generated a signal corresponding to a preselected bonus reel display, (e.g. three 7's, four 7's, etc.) , see pages 8-10. A payout tray 12, provides a winning payout in response to the signal generating means, microcomputer 25, page 7, lines 26-30.
